Editorial

GMJ passes another milestone

It is a great pleasure to publish the 2011 March issue of the Galle Medical Journal. The second issue will be published in September 2011 to coincide with the annual academic sessions of the GMA. From 2011 onwards, GMJ will be published biannually.

In the part of the editors and reviewers, it takes an extra effort to publish a journal twice a year. However, it helps to enhance the image of the journal and solicit quality manuscripts. Since the inclusion of the GMJ under the Sri Lankan Journal Online, our visibility has increased and we have a wider readership than before.

While thanking all authors who considered GMJ to submit their work, we wholeheartedly appreciate the trouble taken by our panel of reviewers who helped in the review process to help us to launch this issue today.
