**From the Editors,**

The September issue of the Galle Medical Journal always coincides with the Annual Academic Sessions of the Galle Medical Association and it contains the abstracts of the oral and poster presentations selected for the sessions.

This year we have been able to issue both March and September issues on time and as Chief Editors we would like to extend our deep appreciation for the members served in the previous editorial board. Same time we would like to welcome the new editorial board selected for the next three years. The assistance of the editorial board and external reviewers is paramount to maintain the quality and relevance of the journal. Further, we would like to thank all researchers who selected GMJ to submit their work and we seek your continued support.
